School Reach – Automated Calling

We are proud to offer the most advanced, state-of-the-art school to parent communications system available on the market today. From school closings to emergency communications to meeting reminders and more SchoolReach will make your life easier.

All you have to do is provide us with the phone numbers you want contacted and you're set!

Unlimited parent phone numbers per student

- Home Phone
- Cell Phone
- Emergency Contact

Here's a quick rundown of what will happen and what you can do to make sure you receive all of your important school-related communications:

- Caller ID will display the main number for the school.
- When receiving a SchoolReach call, answer your phone as you normally would. Say "hello" once, saying multiple "hellos" may delay the start of the message. Please note that there is a **SHORT PAUSE** in the beginning of the call.
- IMPORTANT: Set your answering machine to answer in **four rings or less** to ensure best message delivery. **Note:** Short, succinct answering machine greetings are best for our machine detection and delivery process. Long answering machine greetings, or greetings with pauses or gaps, may cause the SchoolReach message to begin too soon.
- To listen to a message again, wait for the 'press any key' prompt at the end of the message and after pressing a key you'll hear the message again in its entirety.
- A live or machine answer will complete the notification cycle and cease any future calls for a particular message broadcast. If the SchoolReach system encounters a busy, no answer or failed (bad number or line) condition, the system will typically retry that number(s) twice more in 15 minute increments.
- Please list below any numbers you wish to have called:

Name	Phone
_____	_____
_____	_____
