

Hybrid Pearl Millet

King Seed Brand Hybrid Pearl Millet

SAVORY BMR

Savory BMR now offers the exceptional palatability and greater digestibility as we have found in Sorghum Sudangrass BMR's. Savory BMR is a BMR Pearl Millet giving greater returns such as weight gain and/or milk per ton. The high level of palatability, good regrowth, and high tillering capacity make Savory BMR an excellent choice for grazing or hay. It is recommended that at least 6-8 inches of stubble be left after harvest for regrowth.
